Company Summary

WEST GULF TRADING COMPANY

(formerly known as Arab Supplies Co. in 1991) was established in 1999 as an industrialized fabricator/manufacturer and retailer of premium surface materials, custom made joinery, fit-outs, glazing works, and sanitary ware and fixtures. For the past 32 years, our organization has evolved into one of the leading interior fit-out contractors and manufacturers of high-quality furniture, shop-fittings, solid surfaces, joinery, and glazing works in Kuwait.

Company Cont.

Our growth lead us to meet the demands of large volume projects, i.e. Housing Projects, Chain Business, Turnkey Product Solutions and OEM products. We have an unmatched reputation for innovation and excellence to provide solutions, that serve Public Spaces, Home Interiors and Exteriors transforming everyday space into an extraordinary one. This is evident in the complex fit-out work we have done for local and international brands in retail, F&B, hospitality, commercial and entertainment sectors. We've also fitted out and served Amiri Diwan, Government Sector, Educational Institutions, Financial Institutions, Healthcare, Airports, and prestigious private residences across the GCC (Gulf Corporation Council) and beyond.

Company Cont.

In addition, Our name has for years been locally synonymous with the Corian by Dupont de Nemours (USA) brand. We are honored to be Corian's quality network partner and their only recommended fabricator/retailor in Kuwait. We also represent world renowned brands in sanitaryware and fixtures.

Our process-engineered operation manages a 300 sq. m. showroom and a 300 sq. m. manufacturing facility both of which are in Shuwaikh, Kuwait. A 500 sq. m storage facility in Amghara, Kuwait, also supports our storage needs. We are able to run at high-velocity allowing us to meet demands of large volume and world-class projects at competitive prices by leveraging state-of-the-art technology and highly trained and motivated workforce that is supported by a strong engineering and management team experienced in handling scale and complexity.
